DreamCode Core Values

People first

DreamCode is a family that take care of its members.
People wellness is the first and most important
criteria in every decisión.

Innovation

Innovation is our way of providing excellence in service,
we positively impact our clients, in alignment with
changing market conditions.

Ownership

Teams ownership on service delivery has been a key success
factor on our customer relationships

X DreamCode

Technology solutions tailored to your needs

Staff Augmentation in software development

Optimize resources and boost your software project with a superior quality engineering team. We have highly qualified bilingual human talent under the outsourcing modality.

Development of web / mobile applications:

We create applications that increase the visibility of companies and their businesses, all our products are made under agile methodologies and with the leadership of an expert team in programming and development for the entire product life cycle.
Database tuning and administration services:

We provide strategic and tactical resources for companies that require a complement of support services, we are specialists in: architecture and design, migration, backup / recovery, monitoring and performance tuning.

Computer technology consulting:

We are managers and promoters of change and technological transformation of your company, we provide consulting services and personalized guidance in the integration of business technology tools. Find advice on the processes of: updating, backup and maintenance of your software products.

X DreamCode

DreamCode Software Factory
Entire Teams or Staff Aumentation for:

Backend Software Development

Java, Kotlin, Groovy, TypeScript, NodeJS

On-premise, Cloud-native, Docker, K8s

Microservices oriented development

API-Based and Event-Driven Development

Web and Mobile Development

TypeScript, JavaScript, Dart, Java (mobile)

Angular, React, Ionic, Flutter

Microfrontends, We, Hybrid mobile Dev

Automated Test Development

TTD, BDD, Selenium- based UI test

JUnit, Jest, Mockito, Cucumber, K6, Appium

CI/CD using Jekins

Software Architecture

Cloud- native Architectures

**API-Driven Development**

DevOps Culture

Distributed Applications

JavaEE Architectures

Database Services

DBA Services

DB Operations

DB Tuning Services

X DreamCode

Common techonology stack and skills sets

Coding Skills

Java, Groovy, Kotlin, NodeJS/ TypeScript

Spring Framework, API-First, Microservices

JUnit, Jest, Cucumber, Selenium

Angular, React, Ionic

Architecture Frameworks

Cloud-Native (AWS)

Event -driven (Kafka,SQS)

Microservices, Microfrontends

Containers

JavaEE

DevOps

Market -oriented end-to end teams

CI/CD using Jenkins

Fully Automated Tests projects in all testing layers (JUnit, Cucumber y Selenium)

Infrastructure as Code

Databases

RDMS on-premise and cloud-hosted

noSQL Databases

Distributed cache IMDBs

Methodologies

Agile Methodologies

**Safe guidelines if needed**

TDD, BDD

DevOps

Lean Development

Agile Team Structure - Common
End to End Features Development

1 PRODUCT OWNER

2 FRONTEND DEVS

2 AUTOMATED QAs

2 BACKEND DEVS

1 TEAM LEADER

X DreamCode

Talent Acquisition Flow

Customer Request
01

Customer request are classified and skills tabulated

Talent Search
02

Search on internal talent then on well-know talent databases, institutes and partner agencies

Technical Tests
03

Candidates are technically evaluated using our own tests and coding challenges.

Customer Request
04

Potential Dev. Managers perform interviews to validate soft and technical skills, expertise and essential concepts for each role.

Background Test
05

Candidates history is validated against legal and official databases and agencies

Legal Onbording & training
06

Contract sign up and kick-off meeting with assigned team or starting the training plan.

X DreamCode

Teams as these companies love us

We connect your idea with the future. We are ready to listen to you!
